## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 14 is rejected under 35 U.S.C. 102(e) as being anticipated by Ostman et al (US 2003/0039230).

As to claim 14, Ostman discloses a method of data transmission comprising: receiving coded information at a mobile station (Par. 48), wherein the coded information includes signaling information (Par. 12) indicative of a transmission format that corresponds to a data transmission (Par. 12 and 48); separately decoding/ reading (Par. 48) a portion of the coded information (that includes signaling information that belongs to this and only this mobile station using the mobile station specific CRC; Par. 48) prior to the data transmission (Par. 48).

***Allowable Subject Matter***

Claims 1-13 are allowed.

***Conclusion***

In view of the appeal brief filed on November 20, 2007, PROSECUTION IS  
HEREBY REOPENED.

TO avoid abandonment of the application, appellant must exercise one of the  
following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply  
under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed  
by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and  
appeal brief fee can be applied to the new appeal. If however, the appeal fees set forth  
in 37 CFR 41.20 have been increased since they were previously paid, then appellant  
must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by  
signing this office action.
